CERAMIC FIBER CLOTH

SPECIFICATION:

Size: 1 MTR X 30 MTR

Thickness: 2 & 3 MM

Working Temperature: 1200°

S.S. Wire Reinforcement

Vercumulate Treatment Available

APPLICATION:

- It can be used for expansion joints, safety blankets, curtains, welding blankets, protective & insulating covers, shields, gaskets, etc.
- It has been widely used in Welding, Foundry Works, Aluminum & Steel mills, Boiler Insulation & Seal, Shipyard, Refineries, Power Plants & Chemical Plants.

CERAMIC FIBER TAPE

SPECIFICATION:

Width: 25 MM, 40 MM, 50 MM, 75 MM, 100 MM

Working Temperature: 1200°

S.S. Wire Reinforcement

APPLICATION:

- It can be used for protective and insulating covers or shields, cable or pipes wrapping, expansion joints, hi temperature seal or gaskets.
- The product has been widely used in welding, foundry works, aluminum & steel mills, boiler insulation & seal, exhaust system, shipyards, refineries, powerplants & chemical plants.

CERAMIC FIBER ROPE

SPECIFICATION:

Shape: Round and Square

Size: 6 MM to 25 MM

Working Temperature: 1200°

S.S. Wire Reinforcement

APPLICATION:

- It is recommended as high temperature stability, thermal shock resistance, low heat storage, low weight, good chemical stability, inspection door seals, gaskets & flange seals, expansion joint packing for refractory brick work in furnaces and kilns.
- Pipe wrap or insulation in marine Generators, Insulation lagging for pipes, Radiant tube packing in boilers and furnaces, Asbestos free and ideal replacement for asbestos, rope products

100% PTFE PACKING

SPECIFICATION:

Shape: Square

Size: 6 MM to 25 MM

Working Temperature: -200° to 260°

Pressure: 20 MPA

PH: 0 to 14

APPLICATION:

- The packing is made of pure PTFE fiber, stretched and reinforced, then impregnated with PTFE dispersion.
- It is recommended as dynamic sealing in place where linear velocity is up to 4m/s.

GLASS FIBER CLOTH

SPECIFICATION:

Size: 1 MTR X 30 MTR

Thickness: 1 MM, 1.5 Mmm 2 MM, 3 MM

Working Temperature: 550°

Colour Treatment Available

APPLICATION:

- Widely applied as insulation of soft/hard tubes, heat insulation covering of heater & cooler, fire resistant shell, other insulation protecting covering & insulation of watercraft equipment because of its brilliant characteristics of high intensity, low density & good insulation

GLASS FIBER TAPE

SPECIFICATION:

Width: 25 MM, 40 MM, 50 MM, 75 MM, 100 MM

Thick: 2 MM & 3 MM

Working Temperature: 550°

APPLICATION:

- Excellent electrical insulation properties.
- Excellent dimensional stability.
- Excellent heat resistance (Normal service temperature 120°)

GLASS FIBER ROPE

SPECIFICATION:

Shape: Round and Square

Size: 6 MM to 25 MM

Working Temperature: 550°

APPLICATION:

- Gasketing for industrial ovens & furnaces, boilers & wood burning stoves.
- Used in stove door seals, ovens, coke furnaces, thermal insulation of electrical wire, wrapping of round pipes.

CARBONIZED FIBER PACKING

SPECIFICATION:

Shape: Round

Size: 6 MM to 25 MM

Working Temperature: -200° to +260°

Pressure: 20 MPA

PH: 0 to 14

APPLICATION:

- It is used as dynamic sealing in presence of media of weak acid or alkaline or media that contain few grains of solid particles.

MATALIC & NON MATALIC GASKET PACKING

JR FIRE & SAFETY

WHY J.R.?

- Manufacturing
- Exporting across the globe
- Wide area of application
- Quality Products
- Zero defect products
- Smooth Project Handling

HEAT SHIELD TAILOR MAKE BELOW AS PER DESIGN

- SILICON RUBBER PRODUCT.
- HYDRAULIC HOSE ANY SIZE
- PYRO STICKER
- PYRO CORD
